Specification Summary

Brand	Asec
Product type	Tower

Product Description

The Asec Straight Tower Bolt is a reliable and classic security solution designed to secure gates, shed doors, and garage doors from the inside. Featuring a durable black finish, this straight tower bolt offers a simple yet effective way to add an extra layer of physical security to your outdoor or outbuilding doors.

This tower bolt is supplied carded (visi-packed) and comes complete with the necessary fixing screws, making installation quick and straightforward. It is available in multiple lengths ranging from 75mm to 20cm, with weights varying from 150g to 450g depending on the size selected. Please choose your required length, manufacturer reference, and barcode from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
