Specification Summary

Brand	Asec
Product type	Catch & Latch

Product Description

The Asec Suffolk Latch is a classic, medium-duty gate latch designed to provide a traditional look and feel to external doors, garden gates, and outbuildings. Ideal for outdoor applications, this robust latch offers simple and reliable operation. Access is easily gained by using the thumb latch from the exterior side and the lever on the internal side.

Constructed for durability and weather resistance, this latch is suitable for external use. It is supplied in retail-ready visi packaging with a header card, making it an excellent choice for merchandiser displays.

This latch is available in multiple finishes, including Black and Zinc Plated, with varying weights and manufacturer references. Please select your preferred options from the list below to find the perfect match for your project.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
