Specification Summary

Brand	Asec
Product type	DDA

Product Description

The Asec Surface Mount Push to Open Pad is a narrow-profile exit button designed for modern access control systems. Featuring a robust stainless steel faceplate, this momentary switch is ideal for installations where space is limited, such as on narrow door frames or mullions.

With its multi-directional actuation, the pad is exceptionally easy to operate, making it an excellent choice for DDA (Disability Discrimination Act) compliant environments. It features a clear, engraved "Push To Open" legend to guide users. Designed for surface mounting, this unit is straightforward to install and operates on a 12/24V AC/DC input voltage with both Normally Open (N/O) and Normally Closed (N/C) outputs.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS9857
- **Finish:** Stainless Steel
- **Fitting:** Surface
- **Input Voltage:** 12/24V AC/DC
- **Rating:** 2 Amp
- **Operation:** Momentary
- **Outputs:** N/O & N/C
- **Legend:** Push To Open
- **Illumination:** No
- **Width:** 40mm
- **Depth:** 43mm
- **Weight:** 185g
- **Packaging:** Boxed

Key Features

- **Multi-Directional Actuation:** Easy to operate from multiple angles, making it highly accessible.
- **Narrow Style Profile:** Compact 40mm width makes it perfect for installation on narrow door frames and mullions.
- **Durable Construction:** Features a robust stainless steel finish designed to withstand regular use.
- **Surface Mounted:** Simple and straightforward surface-mount installation.
- **Clear Engraved Legend:** Clearly marked with "Push To Open" for ease of use.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
