Product Description

The Asec 'These Premises Are Monitored By CCTV Surveillance' sign is a highly visible security warning designed to inform staff, visitors, and potential intruders that active surveillance is in place. Clearly displaying CCTV signage is a proven deterrent against opportunistic crime, theft, and vandalism, while also helping businesses meet UK CCTV and GDPR transparency guidelines.

Manufactured from durable, semi-rigid PVC, this sign is built to withstand everyday wear and moisture, ensuring long-term legibility. It features a high-tack self-adhesive backing, allowing for quick, tool-free installation on a wide range of smooth, clean surfaces, including glass, doors, painted walls, and UPVC. Measuring 200mm x 300mm, it offers the perfect balance of clear visibility without being overly intrusive.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
