Specification Summary

Brand	Asec
Product type	3 Position

Product Description

The Asec Three Position Key Switch (AS9854) is a narrow-style electric key switch designed for secure access control applications, particularly roller shutter doors and automatic entrances. Featuring a high-quality chrome cylinder mounted on a durable stainless steel faceplate, this switch offers a robust and reliable solution for managing system modes.

The faceplate is clearly engraved with 'AUTO', 'OFF', and 'ON' legends, allowing for straightforward operation. It features maintained operation, meaning the switch remains in its selected position once turned. For maximum flexibility and convenience, the key can be inserted and removed in any of the three positions.

Designed for flush mounting, this narrow-style switch is supplied complete with two keys and all necessary fixings. It supports dual-voltage input (12/24V AC/DC) and provides both Normally Open (N/O) and Normally Closed (N/C) outputs to suit various wiring configurations.

Technical Specifications

- **Brand:** Asec
- **Part Number:** AS9854
- **Finish:** Stainless Steel
- **Fitting:** Flush
- **Dimensions:** 85mm (H) x 40mm (W) x 37mm (D)
- **Input Voltage:** 12/24V AC/DC
- **Current Consumption:** 2A
- **Outputs:** N/O & N/C (Normally Open & Normally Closed)
- **Operation:** Maintained
- **Legend:** AUTO, OFF, ON
- **Keys Supplied:** 2
- **Weight:** 175g

Key Features

- **Three-Position Control:** Clearly engraved with 'AUTO', 'OFF', and 'ON' for easy mode selection.
- **Key Removable in All Positions:** The key can be inserted and removed in any of the three positions for maximum flexibility.
- **Maintained Operation:** The switch remains in the selected position until manually turned.
- **Robust Construction:** Features a durable stainless steel faceplate and a chrome cylinder.
- **Versatile Application:** Ideal for use with roller shutter doors, automatic gates, and access control systems.
- **Complete Package:** Supplied with two keys and fixings for a complete installation.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
