Specification Summary

Brand	Asec
Product type	Through Hardened

Product Description

The Asec Through Hardened Square Link High Security Chain is a heavy-duty security solution designed to protect your valuable property, such as motorcycles, bicycles, gates, and machinery. Manufactured from high-grade square section steel, this through-hardened chain offers exceptional resistance against hacksaw and bolt cutter attacks, making it a formidable deterrent for opportunist thieves.

To ensure long-lasting durability and weather protection, the chain is zinc-plated to resist corrosion and is fully enclosed in a protective PVC sleeve. This sleeve not only shields the steel from the elements but also prevents the chain from scratching or damaging your vehicles or equipment during use.

This high-security chain is designed to suit most high-quality padlocks. It is available in multiple lengths ranging from 1.2m to 2m, with weights ranging from 3.42kg to 4.87kg. Please select your required chain length, weight, and manufacturer reference from the options below to find the perfect fit for your security requirements.

Technical Specifications

- **Brand:** Asec
- **Material:** High-grade square section steel (through-hardened)
- **Link Diameter:** 10mm
- **Finish:** Zinc plated with a protective PVC sleeve
- **Chain Length:** 1.2m, 1.5m, or 2m (please choose from the options below)
- **Weight:** 3.42kg, 3.74kg, or 4.87kg (please choose from the options below)
- **Manufacturer Reference:** AS12222, AS12223, or AS12224 (please choose from the options below)

Key Features

- **High Security:** Through-hardened square section steel construction provides excellent resistance against hacksaw and bolt cutter attacks.
- **Protective PVC Sleeve:** Enclosed in a durable PVC sleeve to prevent scratching or damaging vehicles and equipment.
- **Corrosion Resistant:** Zinc-plated finish protects the chain from rust and weathering.
- **Versatile Compatibility:** Designed to suit most standard high-security padlocks.
- **Multiple Options:** Available in a range of lengths and weights to suit your specific security needs.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
