Product Description

The Asec 'Toilet' Metal Strip Sign is a sleek and contemporary solution for clearly marking restroom facilities in offices, commercial premises, and public buildings. Featuring a polished gold effect finish with a mirror-like surface, this sign provides a modern, professional aesthetic that seamlessly complements high-quality architectural hardware.

With its compact dimensions of 200mm x 50mm, this mini sign is ideal for locations where space is limited or where larger, bulky signage would look unsightly. It is manufactured with a self-adhesive backing, making installation

quick, straightforward, and secure without the need for screws or drilling. Whether you are updating an office block, a restaurant, or a retail space, this durable gold-effect sign offers a clean and stylish way to guide visitors and staff.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
