Specification Summary

Brand	Asec
Product type	Post Box

Product Description

The Asec Traditional Post Box is an attractive and practical medium-sized mailbox designed for secure outdoor use. Featuring a classic pitched roof with scalloped edges, this post box adds a touch of traditional charm to any property.

Constructed from durable powder-coated steel, it is highly corrosion-resistant and features a weather-resistant seal to protect your mail from the elements. The post box is versatile and can be used as a standalone unit or assembled as a bank, making it an ideal choice for multi-occupancy residences such as flats or shared housing (please note that it does not feature holes for lateral fixing).

It features a front-facing mailslot measuring 228mm x 22mm, suitable for standard letters. This post box is keyed to differ, ensuring individual security, and is supplied complete with two keys and all necessary fixings for quick installation.

Available in a choice of Black or White finishes, please select your preferred option from the choices below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
