Specification Summary

Brand	Asec
Product type	Mortice

Product Description

The Asec Transom Housing is a premium architectural housing designed for electro magnets, offering a clean, professional, and secure finish for access control installations. Manufactured from robust aluminium, this non-handed housing is built to blend seamlessly into modern door frames while protecting the magnetic locking components.

This housing is available in two lengths to accommodate different door setups. The 1-metre version is designed for single doors and features one cut-out, while the 2-metre version is designed for double doors and features two cut-outs. Both versions are suitable for use with the Asec AS12271 mini mortice magnet, as well as the Asec AS8533 slim line mortice magnet.

Please select from the options below to choose your required length (1m or 2m), weight (1.5kg or 4kg), packaging (boxed or tube), barcode, and manufacturer reference (AS9518 or AS9519).

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
