Specification Summary

Brand	Asec
Product type	Key Ring

Product Description

The Asec Trolley Token Key Ring is a practical and fun accessory designed to ensure you are never left searching for a coin at the supermarket or gym. Supplied as a pack of 12 on a card, these novelty trolley tokens are perfect for families, gifts, or retail display.

Each token comes complete with a handy spring clip and a 25mm split ring, making it easy to attach securely to your keys or bag. They are available in a choice of eye-catching designs, including a Heart, Smiley Face, or Union Jack. Please choose your preferred finish from the options below.

These durable and convenient trolley tokens are designed to replicate the size of a standard coin, providing a quick and hassle-free way to release shopping trolleys and gym lockers.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
