Specification Summary

Brand	Asec
Product type	Combination

Product Description

The Asec TSA Combination Luggage Cable Travel Padlock is an essential security accessory for international travellers, particularly those visiting the USA. Designed to comply with Transportation Security Administration (TSA) requirements, this padlock allows airport security and customs officials to inspect your baggage without damaging the lock or your luggage.

Featuring a flexible cable instead of a rigid shackle, this padlock is highly versatile and easy to thread through awkward zip pulls, bag handles, and suitcase eyelets. It is equipped with a user-resettable 3-digit combination lock,

eliminating the need to carry keys while on the move. With its lightweight design and durable silver finish, it provides reliable, hassle-free security for your peace of mind during transit.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS10210
- **Combination:** 3 Digit (resettable)
- **Finish:** Silver
- **Shackle Type:** Flexible cable
- **Weight:** 60g
- **Barcode:** 5055120743271

Key Features

- **TSA Approved:** Conforms to Transportation Security Administration requirements, allowing customs to search baggage without destroying the lock.
- **Flexible Cable:** Perfect for feeding through awkward handles, double zips, and suitcase eyelets.
- **Resettable Combination:** User-resettable 3-digit code removes the need for keys.
- **Lightweight Design:** Weighs only 60g, making it ideal for travel.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
