Specification Summary

Brand	Asec
Product type	Combination

Product Description

The Asec TSA Combination Padlock is the ideal security companion for international travel, particularly when flying to the USA. Under transport security regulations, customs officers must have access to search your luggage if required. By using this Travel Sentry Approved (TSA) padlock, airport security staff can safely inspect and re-lock your bags using a master key, preventing any forced entry or damage to your luggage.

Designed with convenience in mind, this compact padlock features a resettable 3-wheel combination mechanism, eliminating the need to carry physical keys that could easily be lost during transit. You can easily set and reset your own personal code. With its lightweight 30mm body and a slim 3mm steel shackle, it is perfectly sized to fit through the zip pulls of suitcases, backpacks, and travel bags without adding unnecessary weight.

Technical Specifications

- **Body Width:** 30mm
- **Body Height:** 40mm
- **Body Depth:** 12mm
- **Shackle Diameter:** 3mm
- **Horizontal Clearance:** 12.5mm
- **Vertical Clearance:** 19mm
- **Weight:** 40g
- **Manufacturer Reference:** AS2555

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
