Specification Summary

Brand	Asec
Product type	Tubular

Product Description

The Asec Tubular Mortice Latch is a reliable and straightforward latching solution designed for internal doors, keeping them securely closed until the handle or knob is operated. Featuring a reversible latch bolt, it is suitable for both left and right-handed doors, offering straightforward installation without the need for complex adjustments.

This tubular latch is available in multiple sizes and finishes to suit your door preparation and interior decor. Please choose your preferred case depth (64mm or 76mm), finish (Electro Brass or Nickel Plated), and forend width (24mm or 25mm) from the options below.

Each latch is supplied boxed with a matching forend and strike plate, featuring countersunk screw holes to ensure a neat, flush, and professional finish on your door.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
