Specification Summary

Brand	Asec
Product type	Furniture Lock

Product Description

The Asec Twin Flange Fix Furniture Pedestal Lock is a reliable and easy-to-install locking solution designed specifically for wooden office pedestal cabinets and multi-drawer units. It features a twin fixing back plate (double wing) that ensures a secure, stable mount inside the drawer or cupboard, preventing the lock from twisting or loosening during use.

With a 180-degree key rotation, this lock smoothly operates the internal multi-drawer locking mechanism. It comes with a standard 22mm nozzle length, which is perfectly suited to typical UK wooden drawer thicknesses, and a 42mm actuator peg. Finished in polished chrome, it offers a clean, professional look that blends seamlessly with modern office furniture.

Each lock is supplied complete with two keys, providing an efficient and secure way to protect sensitive documents and personal belongings in commercial or home office environments.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS9956
- **Finish:** Chrome Plated
- **Nozzle Length:** 22mm
- **Nozzle Diameter:** 18mm
- **Peg (Actuator) Length:** 42mm
- **Rotation:** 180° lock/unlock

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
