Specification Summary

Brand	Asec
Product type	Taktyle (Braille)

Product Description

The Asec Unisex Taktyle (Braille) Self-Adhesive Sign is designed to provide clear, accessible, and inclusive signage for public, commercial, and workplace facilities. Featuring the "Unisex" legend alongside raised tactile lettering and Braille, this sign helps ensure that your premises are easy to navigate for visually impaired visitors and staff.

Manufactured from high-quality semi-rigid PVC, this sign is built to withstand the demands of busy environments. It features a moulded matt finish in a high-contrast blue, which effectively prevents glare and reflection under bright or direct lighting. This ensures excellent visual clarity from a distance, while the raised tactile elements provide reliable touch-based recognition.

Installation is quick and straightforward thanks to the strong self-adhesive backing. There is no need for tools, screws, or drilling - simply peel and apply to any clean, flat surface, such as doors or walls. Ideal for offices, schools, retail spaces, and public buildings, this sign is a practical and durable solution for modern accessibility needs.

Technical Specifications

- **Brand:** Asec

- **Manufacturer Reference:** AS4715
- **Legend:** Unisex
- **Finish:** Blue
- **Material:** Semi-rigid PVC
- **Width:** 150mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
