Specification Summary

Brand	Asec
Product type	Nut Fix

Product Description

The Asec Universal Camlock is a reliable replacement lock designed to fit a wide variety of post boxes, including Decayeux (DAD) models. Ideal for restoring security to your mailbox, this camlock features a 15mm cranked cam and is supplied with a secure horseshoe fixing clip for straightforward installation.

Constructed with a robust 5-pin mechanism, it offers dependable security with up to 200 key differs. The lock is finished in a high-quality chrome plating, providing excellent durability and resistance to the elements. Each lock is supplied keyed to differ and comes complete with two keys, ensuring you have a spare on hand.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
