Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

The Asec Universal Circuit Breaker Lockout is an essential safety device designed for Lockout Tagout (LOTO) procedures. Featuring a highly visible red finish, it is designed to safeguard employees from the unexpected energisation or startup of machinery and equipment during service or maintenance activities.

This hard-wearing lockout device is highly versatile and is designed to suit almost any size of miniature circuit breaker (MCB). It is incredibly easy to use: simply switch off the breaker, place the lockout device over the toggle switch, and tighten the internal grub screw using the integrated thumbscrew. Once in place, a safety padlock can be attached to secure the lockout, preventing unauthorised or accidental reactivation.

With its robust construction and integral hinge, this Asec lockout device provides a reliable and durable solution for industrial and commercial electrical safety compliance.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11849
- **Finish:** Red
- **Weight:** 19g

- **Pack Quantity:** 1

Key Features

- **Universal Fit:** Designed to suit almost any size of miniature circuit breaker (MCB).
- **Highly Visible:** Bright red finish ensures the lockout is easily noticeable during maintenance.
- **Easy to Install:** Features an internal grub screw, thumbscrew, and integral hinge for quick, tool-free application.
- **Enhanced Safety:** Helps prevent unexpected energisation or startup of machinery during servicing.
- **Padlock Compatible:** Designed to accept a safety padlock to secure the device in the off position.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
