Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

The Asec Universal Extra Large Circuit Breaker Lockout is designed to provide robust security during essential electrical maintenance and servicing. Part of the Asec Lockout Tagout (LOTO) range, this hard-wearing device helps safeguard employees from the unexpected energisation or startup of machinery, or the release of hazardous energy.

Simple to install, the lockout is fitted by turning off the circuit breaker, placing the lockout over the switch, and tightening the internal grub screw to secure it in place. Once positioned, a lockout padlock can be attached through the hasp hole. This blocks access to the grub screw, preventing the switch from being operated until the padlock is safely removed.

With its durable construction and highly visible red finish, it is an essential safety tool for industrial, commercial, and domestic electrical maintenance.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11855
- **Barcode:** 5015397469946

- **Finish:** Red
- **Width:** 40mm
- **Depth:** 35mm
- **Weight:** 16g
- **Pack Quantity:** 1

Key Features

- **Easy to Install:** Simply place over the switch and tighten the internal grub screw to lock in place
- **Padlock Compatible:** Hasp hole allows a padlock to be fitted, preventing access to the grub screw and stopping unauthorised switch operation
- **Highly Visible:** Bright red finish ensures the lockout is easily identifiable during maintenance
- **Durable Construction:** Hard-wearing design suitable for demanding environments
- **Versatile Application:** Can be fitted to toggles and is suitable for extra-large circuit breakers
- **Enhanced Safety:** Helps meet standard safety practices and procedures to protect employees during servicing

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
