## Product Description

The Asec Urban Portland P5 Return Bar Lever on Round Rose Door Furniture is an innovative, high-performance door handle designed to offer exceptional durability at a competitive price. Crafted from Asec's durable Pro5 material, this handle is highly resistant to both stains and scratches. This makes it an ideal choice for harsh environments, including coastal areas where salt air can quickly degrade standard hardware.

With its sleek return-to-door (RTD) bar design mounted on a concealed round rose, this handle is suitable for both commercial and domestic applications. It is fully fire-tested and rated for 30 and 60-minute fire doors (FD30/FD60), making it suitable for both internal and external installations.

Supplied as a pair, the set comes complete with wood screws and 45mm inter-bolts, making it ready to install on standard 35mm thick doors. It features a standard 8mm spindle and is backed by a 10-year manufacturer's guarantee for long-term peace of mind.
