Specification Summary

Brand	Asec
Product type	Hasp & Staple

Product Description

The Asec Vertical Locking Bar (AS2601) is a robust, space-saving security solution designed to protect your property against physical attack. Unlike traditional horizontal hasps, this vertical padbar is designed to mount upright, making it the ideal choice for narrow door frames, gates, sheds, and restricted areas where a standard hasp and staple cannot be easily fitted.

Constructed from durable mild steel with a classic black finish, this locking bar features a hardened steel staple that offers excellent resistance to cutting and sawing. Security is further enhanced by a secure hinge pin design that resists tampering. For maximum protection, all fixing screws and bolts are completely concealed once a padlock is applied, preventing unauthorised removal.

The locking bar is supplied complete with both screws and bolt fixings, ensuring a straightforward installation on a variety of timber and metal surfaces.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS2601
- **Material:** Mild steel
- **Finish:** Black
- **Length:** 15cm
- **Width:** 15.5cm
- **Weight:** 900g
- **Fixings:** Supplied with screws and bolt fixings

Key Features

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
