Product type	Miscellaneous

Product Description

The Asec Victorian Door Knocker is an elegant, traditional addition to any front door, combining classic style with robust functionality. Featuring the timeless Victorian Urn pattern, this door knocker is finished in high-quality polished brass, providing a bright and welcoming look to your home's entrance.

Designed for straightforward installation, it features 126mm fixing centres and a total length of 20.2cm, making it an ideal choice for both new installations and replacing existing door hardware. Supplied individually bagged, this door knocker is a durable and stylish accessory that beautifully complements traditional properties.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
