Specification Summary

Brand	Asec
Product type	Door Tidy

Product Description

The Asec Victorian Door Tidy is a classic, plain Victorian-style letter tidy designed to be fitted internally on wooden doors. It provides a neat and elegant finish to the inside of your front door, covering the opening of your letterbox to help reduce draughts and keep your hallway looking tidy.

This high-quality internal letter tidy is available in two classic finishes to match your existing door furniture: Polished Brass and Chrome Plated. It has a width of 280mm (28cm), making it suitable for standard wooden doors. Please select your preferred finish and specification from the options below.

Each door tidy is supplied in visual (Visi) packaging, complete with the necessary fixings for a straightforward installation.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
