Specification Summary

Brand	Asec
Product type	Cylinder Pull

Product Description

The Asec Victorian Thin Cylinder Pull is a stylish, architectural rim cylinder pull designed to add a classic touch to your timber doors. Featuring a sleek, tapered pull design, it provides a convenient and comfortable grip point for pulling doors closed.

Crafted with an elegant polished chrome finish, this cylinder pull is designed to fit behind standard UK rim cylinders (such as Yale-style cylinders) and is ideal for use with timber door nightlatches. Its thin, Victorian-inspired profile offers a clean, traditional aesthetic without compromising on functionality. Installation is quick and straightforward, fitting neatly behind the cylinder face during setup.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
