Specification Summary

Brand	Asec Vital
Product type	Rim Cylinders

Product Description

The Asec Vital 6-Pin Rim Cylinder is an ideal entry-level cylinder, making it a popular choice for remedial locksmith work and domestic replacements. It is designed for use on wooden doors, typically in conjunction with a standard rim nightlatch.

A key benefit of this cylinder is its smart dual finish, featuring a nickel-plated body paired with a polished brass plug. This versatile design ensures it blends seamlessly with both brass and nickel door hardware, providing a cost-effective and stylish solution.

For added convenience, these cylinders can be keyed alike with other euro and oval cylinders in the Asec Vital range, allowing you to operate multiple locks with a single key. Please note, however, that they cannot be keyed alike with Asec Vital screw-in cylinders. Each cylinder is supplied complete with five keys and a fixing screw.

Technical Specifications

- Cylinder Type: Rim Cylinder
- Mechanism: 6-Pin
- Finish: Dual Finish (Nickel Plated / Polished Brass)
- Standard: BS EN 1303:2005
