Specification Summary

Brand	Asec
Product type	Door Stop

Product Description

The Asec Wall Door Stop Disc with Flat Buffer is a sleek, space-saving solution designed to protect your walls, skirting boards, and doors from impact damage. Featuring a low-profile design with a projection of just 10mm, this door stop is particularly ideal for compact spaces, such as toilet cubicles, where maximising space is essential.

Crafted with a durable rubber-ended buffer and finished in high-quality Satin Stainless Steel, it offers a contemporary aesthetic that blends seamlessly into modern commercial and residential interiors. The flat buffer ensures that doors can open as wide as possible while still providing reliable cushioning to prevent unsightly scuffs, dents, and structural wear. It is suitable for mounting directly onto walls or skirting boards, offering versatile installation options.

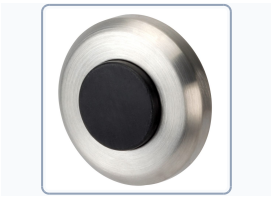

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11870
- **Diameter:** 62.55mm
- **Projection:** 10mm
- **Finish:** Satin Stainless Steel
- **Weight:** 200g
- **Pack Quantity:** 1
- **Packaging:** Bagged
- **Barcode:** 5056240103709

Key Features

- **Space-Saving Design:** Features a flat buffer with a minimal 10mm projection, making it ideal for tight spaces and cubicles.
- **Surface Protection:** Helps prevent damage to walls, skirting boards, and doors when they are swung open.
- **Versatile Mounting:** Suitable for installation on both walls and skirting boards.
- **Modern Aesthetic:** Sleek disc shape with a high-quality Satin Stainless Steel finish.
- **Durable Buffer:** Equipped with a resilient rubber end to absorb impact effectively.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
