Specification Summary

Brand	Asec
Product type	Door Stop

Product Description

The Asec Wall Door Stop with Rose is a high-quality, wall-mounted door stop designed to protect your walls, skirting boards, and door hardware from impact damage. Crafted with a premium satin stainless steel finish, this door stop blends seamlessly into modern residential and commercial interiors.

It features a 75mm projecting stem with a 16mm diameter, capped with a protective tip to absorb impact quietly and effectively. The door stop is mounted on an architectural 50mm rose with an 8mm depth. Thanks to the concealed fixing design, all mounting screws are hidden behind the rose, ensuring a clean, neat, and professional installation.

Ideal for high-traffic areas, this robust door stop offers a stylish yet practical solution to prevent doors from opening too far and causing costly damage to plasterwork or paint.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS4536
- **Finish:** Satin Stainless Steel
- **Projection (Length):** 75mm
- **Stem Diameter (Width):** 16mm

- **Rose Diameter:** 50mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
