Product Description

The Asec 'Warning: Anti Climb Paint' sign is a highly visible security notice designed to alert visitors and potential intruders to the presence of non-drying anti-climb paint on your property. Displaying clear warning signs is not only an effective deterrent but is also a key step in meeting your duty of care under occupiers' liability guidelines.

Manufactured from durable self-adhesive PVC, this sign is quick and easy to apply directly to clean, dry surfaces such as walls, fences, gates, or posts. Featuring a bold black and yellow hazard colour scheme, it ensures maximum visibility from a distance, helping you maintain a safe and secure perimeter.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11520
- **Material:** Self-adhesive PVC
- **Width:** 200mm
- **Height:** 300mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
