Product Description

The Asec "Warning CCTV Cameras in Operation" sign is an essential security addition designed to clearly advise staff, visitors, and potential intruders that surveillance cameras are active on your premises. Displaying clear signage is not only a highly effective visual deterrent against theft, vandalism, and trespassing, but it also helps property owners meet security awareness guidelines.

Manufactured from durable, semi-rigid PVC, this sign is built to withstand everyday wear and tear while maintaining its professional appearance. It features a strong self-adhesive backing, allowing for quick, tool-free installation on any clean, smooth, and dry surface - such as glass, doors, painted walls, metal, or uPVC. Measuring 200mm by 300mm, its portrait layout provides excellent visibility from a distance without being overly intrusive.

Technical Specifications

- **Manufacturer:** Asec
- **Part Number:** AS4680
- **Barcode:** 5015397169761
- **Material:** Semi-rigid PVC

- **Mounting Type:** Self-adhesive backing
- **Width:** 200mm (20cm)
- **Height:** 300mm (30cm)
- **Finish:** White
- **Legend:** Warning CCTV Cameras In Operation
- **Pack Quantity:** 1

Key Features

- **Clear Deterrent:** Boldly warns visitors and intruders that CCTV cameras are in operation to help prevent anti-social behaviour, theft, and trespassing.
- **Durable PVC Construction:** Made from high-quality semi-rigid PVC that resists tearing, creasing, and moisture.
- **Self-Adhesive Backing:** Quick and easy peel-and-stick installation with no drilling, screws, or tools required.
- **Versatile Application:** Adheres securely to most smooth, clean surfaces including glass, metal, uPVC, and painted walls.
- **Optimal Visibility:** The 200mm x 300mm portrait size ensures the warning is highly visible from a distance.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
