Product Description

The Asec 'Warning: CCTV In Operation' Sign is a highly visible security notice designed to deter potential intruders and ensure compliance with surveillance regulations. Featuring a bold black and yellow colour scheme, this sign clearly communicates that video recording is active on your premises.

Constructed from durable 1mm rigid PVC, this non-adhesive sign is built to withstand the elements, making it suitable for both indoor and outdoor use. Measuring 300mm wide by 400mm high, it provides clear, easy-to-read messaging from a distance. It can be easily mounted to walls, gates, or doors using your preferred fixing method, such as screws, adhesive pads, or cable ties.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
