Specification Summary

Brand	Asec
Product type	Plastic

Product Description

The Asec White Momentary 1 Gang Exit Switch is a simple and reliable surface-mounted solution for access control systems. Featuring a clean white plastic finish, this 1-gang switch is clearly marked with the "Press To Exit" legend, ensuring it is easily identifiable for users exiting a secured building or room.

Operating on a momentary "press to make" action, the switch changes state when pressed and immediately springs back to its original position once released. It is equipped with Normally Open (N/O) and Common (COM) terminals, making it highly compatible with standard 12V or 24V DC door entry and electronic locking systems.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
