Specification Summary

Brand	Asec
Product type	Hasp & Staple

Product Description

The Asec Wire Hasp & Staple is a cost-effective and practical solution designed for low-security applications. It is highly versatile and ideal for DIY projects, cupboards, cabinets, and light-duty doors where a simple, reliable closure is needed.

This light-duty wire hasp and staple features a classic black finish and is supplied in visi packaging (bagged with a header card), making it perfect for retail merchandiser displays or neat storage.

To suit different installation requirements, this product is available in multiple lengths, weights, and manufacturer references. Please choose your preferred size and specification from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
