Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

The Asec Yellow MCB Lockout Type A (AS11851) is a highly visible and easy-to-use safety device designed to fit virtually any size of Miniature Circuit Breaker (MCB), regardless of its size or hole position. This lockout device is an essential component of any Lockout Tagout (LOTO) safety procedure, helping to protect personnel from accidental machine startup or hazardous energy release during maintenance and servicing.

To use, simply switch off the circuit breaker, place the lockout device over the toggle, and tighten the internal grub screw to secure it in place. The integrated thumbscrew features a clever hinged design, allowing it to fold down. Once folded, a safety padlock can be fitted through the hasp hole, preventing access to the screw and ensuring the breaker cannot be switched back on until the padlock is safely removed.

With its compact 10mm profile and bright yellow finish, this lockout device is highly visible and helps prevent incorrect or unauthorised use of critical switches.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11851
- **Barcode:** 5015397457615

- **Profile:** 10mm
- **Finish:** Yellow
- **Weight:** 15g
- **Pack Quantity:** 1

Key Features

- **Universal Fit:** Designed to fit virtually any size of Miniature Circuit Breaker (MCB) regardless of size or hole position.
- **Easy to Install:** Simply turn off the breaker, place the lockout over the switch, and tighten the internal grub screw.
- **Hinged Thumbscrew:** Features an integral hinge that folds down, allowing a padlock to be fitted to secure the switch.
- **Highly Visible:** Bright yellow finish ensures the lockout is easily spotted during maintenance.
- **Enhanced Safety:** Helps safeguard employees from unexpected energisation or startup of machinery during service activities.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
