Product Description

The Asec Z & L Bracket (AS9913) is specifically designed to facilitate the installation of the Asec AS9820 external mini magnetic lock. Engineered for inward-opening doors and gates, this bracket set provides multiple fitting options to ensure a secure, flush, and reliable mount.

Constructed from high-quality satin anodised aluminium, the bracket is fully weather-resistant, making it highly suitable for external applications where exposure to the elements is a factor. Its robust design ensures that your access control system remains stable and secure over time. This surface-mounted bracket is easy to install and comes with a 1-year manufacturer's guarantee for added peace of mind.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
