Specification Summary

Brand	Autopa
Product type	Nut Fix

Product Description

The Autopa Parking Post Camlock is a high-quality replacement lock designed specifically for Autopa folding parking posts. Ideal for restoring the security of your parking post, this camlock ensures your reserved parking space remains protected against unauthorised access.

This replacement camlock features a durable chrome-plated finish and a conical head shape, offering robust weather resistance and reliable operation in outdoor environments. It operates with a 90° anti-clockwise movement and can be secured using either a horseshoe clip or a nut fixing.

Depending on your security requirements, this camlock is available in multiple options. You can choose from Keyed Alike or Keyed To Differ options below, allowing you to match existing keys or keep each post unique. Each lock is supplied complete with 2 keys. Please select your preferred keying option, manufacturer reference, and barcode from the options below to find the perfect fit for your setup.
