Specification Summary

Brand	Avocet (ABS)
Product type	Camlock

Product Description

The Avocet ABS Design Cam Lock is a high-security locking solution designed to protect cabinets, drawers, personal lockers, and coin-operated machines. Engineered with a patent-protected pin tumbler mechanism, this precision-built cam lock offers robust protection for both residential and commercial applications.

With a high-specification cylinder, the ABS Design cam lock is built to resist common forced entry methods, including drilling, picking, bumping, twisting, chisel, and screw attacks. It complies with the requirements of BS EN 1303:2015, achieving Grade 6 key security - the highest possible classification. This makes it an ideal choice for commercial clients requiring a reliable, high-performance master key system.

The lock is available in multiple cylinder sizes, including 19mm, 22mm, and 29mm. Please select your required size from the options below. Each lock is supplied with two reversible nickel silver keys featuring a comfortable nylon grip, a key code card, and coloured key dots for easy identification.

Technical Specifications

- **Cylinder Lengths:** 19mm, 22mm, and 29mm (please select from the options below)
- **Standard:** Complies with BS EN 1303:2015 (Grade 6 Key Security)
- **Finish:** Satin Nickel
- **Key Rotation:** 360°
- **Keys Supplied:** 2 x Reversible nickel silver keys with nylon comfort grip and key code card
- **Keying Options:** Available Keyed to Differ, Keyed Alike, or Master Keyed

Key Features

- **Patented Key Protection:** Incorporates patented technology in both the key and cylinder to prevent unauthorised key duplication
- **Attack Resistant:** High-specification cylinder offers robust resistance against drilling, picking, bumping, twisting, chisel, and screw attacks
- **Versatile Security:** Ideal for securing cabinets, drawers, personal lockers, and vending or coin-operated machines
- **Easy Identification:** Reversible keys feature coloured key dots for quick user or location identification

- **Master Key Compatible:** Precision engineered by Avocet (ABS) to meet the needs of commercial master key systems

Brand Profile

Avocet (ABS)

Avocet (The **Avocet Hardware Group**) is a UK door-and-window hardware brand best known for its **ABS high-security cylinders**, especially its anti-snap euro cylinders used heavily in uPVC, composite and timber door sets. They position themselves as a long-standing trade supplier of **window and door hardware** alongside the award-winning **ABS** cylinder range.

Where Avocet really made its name is **anti-snap protection**. Their ABS cylinders use patented mechanisms designed to “lock down” after a snapping attack—so even if the outside section is sacrificed, the door doesn’t open. Avocet markets this as **Active Snap Protection / Snap Secure technology**, built around an internal locking action triggered by the attack.

On the certification side, Avocet’s flagship ABS cylinders are commonly sold and independently listed with top-tier UK security markings like:

- **TS007 3-Star** (anti-snap standard for cylinders/door hardware)
- **SS312 Sold Secure Diamond**
- **Secured by Design** (UK police initiative)

Beyond cylinders, Avocet also sells broader “suited” door hardware ranges (handles and complementary hardware) aimed at giving fabricators/installers a consistent look and spec across a door set.
