Product type	Screw In

Product Description

The Avocet ABS Design Mortice Screw-in Cylinder is a high-security cam cylinder designed for both residential and commercial door locksets. Featuring a market-proven, patent-protected pin tumbler mechanism, this cylinder provides exceptional physical protection and peace of mind.

Engineered to withstand forced entry attempts, the cylinder offers robust resistance against drilling, picking, bumping, twisting, chisel, and screw attacks. It is fully compliant with the rigorous requirements of BS EN1303:2015, making it a reliable choice for demanding security applications.

Each cylinder is supplied in a sleek Satin Nickel (US15) finish and comes complete with two reversible nickel silver keys. These keys feature a comfort-grip nylon head and coloured key dots for easy user or location identification. A key code card is also included to facilitate secure key duplication. For versatile installation requirements, this cylinder is available in Key to Differ, Key Alike, and Master Keyed options.
