Specification Summary

Brand	Avocet (ABS)
Product type	Avocet ABS Master Padlock Range
Keyway	ABS Master Padlocks

Product Description

The Avocet ABS Master C10 Padlock is a high-security, CEN Grade 4 open shackle padlock designed to deliver robust protection in the most demanding environments. Constructed with a hardened steel sleeved body and a 10mm hardened Boron alloy steel shackle, this padlock offers exceptional resistance against sawing, cutting, and physical attacks. It is ideal for securing garages, warehouses, perimeter gates, commercial vehicles, and trailers.

A standout benefit of the ABS Master padlock range is its integration with the patented ABS Master cylinder system. This allows you to key the padlock alike to your existing ABS 3-star door cylinders, giving you the convenience of operating your home, garage, and padlock with just one single key.

This padlock is available in two distinct configurations: the **C10 POP** (featuring a captive, pop-up shackle and key-retaining mechanism) and the **C10 REM** (featuring a fully removable shackle, ideal for use with high-security hasps). Please choose your preferred option from the selection below.

Technical Specifications

- **CEN Rating:** Grade 4
- **Body Width:** 63mm
- **Body Height:** 47mm
- **Body Thickness:** 22mm
- **Shackle Diameter:** 10mm
- **Vertical Shackle Clearance:** 30mm
- **Horizontal Shackle Clearance:** 33mm
- **Body Material:** Hardened steel sleeved body
- **Shackle Material:** Hardened Boron alloy steel
- **Finish:** Electrophoretic (corrosion resistant)
- **Cylinder Type:** Patented ABS Master (rekeyable, over 1 million combinations)

Key Features

- **High Security:** CEN Grade 4 rated padlock designed to resist picking, drilling, and sawing.
- **Shackle Options:** Available with a pop-up retained shackle (C10 POP) or a fully removable shackle (C10 REM) - please select your option below.
- **One-Key Convenience:** Can be keyed alike to existing ABS door locks, allowing a single key to open all your security locks.
- **Corrosion Resistant:** Electrophoretic finish provides excellent weatherproofing for reliable outdoor performance.
- **Key Duplication Protection:** Patented key design with a security card included to prevent unauthorised key copying.

Brand Profile

Avocet (ABS)

Avocet (The **Avocet Hardware Group**) is a UK door-and-window hardware brand best known for its **ABS high-security cylinders**, especially its anti-snap euro cylinders used heavily in uPVC, composite and timber door sets. They position themselves as a long-standing trade supplier of **window and door hardware** alongside the award-winning **ABS** cylinder range.

Where Avocet really made its name is **anti-snap protection**. Their ABS cylinders use patented mechanisms designed to “lock down” after a snapping attack—so even if the outside section is sacrificed, the door doesn’t open. Avocet markets this as **Active Snap Protection / Snap Secure technology**, built around an internal locking action triggered by the attack.

On the certification side, Avocet’s flagship ABS cylinders are commonly sold and independently listed with top-tier UK security markings like:

- **TS007 3-Star** (anti-snap standard for cylinders/door hardware)
- **SS312 Sold Secure Diamond**
- **Secured by Design** (UK police initiative)

Beyond cylinders, Avocet also sells broader “suited” door hardware ranges (handles and complementary hardware) aimed at giving fabricators/installers a consistent look and spec across a door set.
