Specification Summary

Brand	Avocet (ABS)
Product type	Avocet ABS Master Padlock Range
Keyway	ABS Master Padlocks

Product Description

The Avocet ABS Master C13 Padlock is a heavy-duty, high-security open shackle padlock designed to withstand severe physical attacks and harsh weather conditions. Featuring a robust 73mm hardened steel body and a formidable 13mm hardened boron alloy steel shackle, this padlock is ideal for securing commercial warehouses, garages, perimeter gates, and heavy vehicles.

A key benefit of the ABS Master range is its integration with the patented ABS Master key system. This high-security cylinder protects against picking, drilling, and unauthorised key duplication, and can be keyed alike to your existing ABS door cylinders. This allows you to operate your home doors, garage doors, and padlocks using a single key.

This padlock is available with two different shackle operations to suit your security setup. Please choose between the **C13 POP** (retained shackle, which pops open but remains attached to the lock body) or the **C13 REM** (fully removable shackle) from the options below.

Technical Specifications

- **Body Width:** 73mm
- **Body Height:** 51mm
- **Body Thickness:** 25mm
- **Shackle Diameter:** 13mm
- **Vertical Shackle Clearance:** 37mm
- **Horizontal Shackle Clearance:** 33mm
- **CEN Rating:** Grade 5
- **Shackle Options:** Retained (C13 POP) or Removable (C13 REM)
- **Body Material:** Hardened steel sleeved body
- **Shackle Material:** Hardened boron alloy steel
- **Finish:** Corrosion-resistant electrophoretic finish

Key Features

- **High Security:** CEN Grade 5 rating provides exceptional resistance against cutting, sawing, and drilling.
- **ABS Master Cylinder:** High-security cylinder mechanism resistant to picking and drilling attacks.
- **Key Control:** Patented key design prevents unauthorised key duplication (key card included).
- **Keyed Alike Capability:** Can be keyed alike to other ABS Master series locks for single-key convenience.
- **Weather Resistant:** Durable electrophoretic finish ensures reliable performance in harsh outdoor environments.
- **Shackle Configurations:** Available in both retained (POP) and removable (REM) options to suit your specific application.

	C13 REM	£90.00	£108.00	**Body:** 73mm **Manufacturer Reference:** ABS C-13 **Vertical Clearance:** 37mm

Brand Profile

Avocet (ABS)

Avocet (The **Avocet Hardware Group**) is a UK door-and-window hardware brand best known for its **ABS high-security cylinders**, especially its anti-snap euro cylinders used heavily in uPVC, composite and timber door sets. They position themselves as a long-standing trade supplier of **window and door hardware** alongside the award-winning **ABS** cylinder range.

Where Avocet really made its name is **anti-snap protection**. Their ABS cylinders use patented mechanisms designed to “lock down” after a snapping attack—so even if the outside section is sacrificed, the door doesn’t open. Avocet markets this as **Active Snap Protection / Snap Secure technology**, built around an internal locking action triggered by the attack.

On the certification side, Avocet’s flagship ABS cylinders are commonly sold and independently listed with top-tier UK security markings like:

- **TS007 3-Star** (anti-snap standard for cylinders/door hardware)
- **SS312 Sold Secure Diamond**
- **Secured by Design** (UK police initiative)

Beyond cylinders, Avocet also sells broader “suited” door hardware ranges (handles and complementary hardware) aimed at giving fabricators/installers a consistent look and spec across a door set.
