Specification Summary

Brand	Avocet (ABS)
Product type	Avocet ABS Master Padlock Range
Keyway	ABS Master Padlocks

Product Description

The Avocet ABS Master C8 Padlock is a premium, high-security padlock designed to deliver robust protection in the most challenging environments. Combining a compact design with market-leading performance, this 50mm padlock is ideal for securing garages, warehouses, commercial vehicles, perimeter gates, and trailers.

At its core, the C8 features the highly secure ABS Master cylinder mechanism. This advanced cylinder offers exceptional resistance against picking, drilling, and other forms of forced entry. A key advantage of the ABS Master range is its integration capability; you can have this padlock keyed alike to your existing ABS Master Series door locks, allowing you to operate your home, garage, and padlock with a single key.

Built to withstand both physical attacks and harsh weather, the padlock features a hardened steel sleeved body and a tough hardened boron alloy steel shackle. Its electrophoretic finish provides outstanding corrosion resistance, ensuring smooth and reliable operation even in wet and outdoor conditions.

Technical Specifications

- **Body Width:** 50mm
- **Shackle Diameter:** 8mm
- **Body Material:** Hardened steel sleeved body
- **Shackle Material:** Hardened boron alloy steel
- **Finish:** Electrophoretic (corrosion resistant)
- **Cylinder:** Patented ABS Master cylinder
- **Key Combinations:** Over 1 million

Key Features

- **High-Security Protection:** Designed to resist picking, drilling, sawing, and other physical attack methods.
- **Weather Resistant:** Electrophoretic finish provides excellent protection against corrosion in harsh outdoor environments.
- **One-Key Convenience:** Can be keyed alike to match existing ABS Master Series door locks, allowing you to use a single key for your home and padlock.
- **Unauthorised Key Protection:** Patented ABS Master key design prevents unauthorised key duplication (key card included).
- **Versatile Application:** Ideal for securing garages, warehouses, gates, trailers, and commercial vehicles.
- **Rekeyable Cylinder:** Features a rekeyable mechanism offering over 1 million key combinations.

Brand Profile

Avocet (ABS)

Avocet (The **Avocet Hardware Group**) is a UK door-and-window hardware brand best known for its **ABS high-security cylinders**, especially its anti-snap euro cylinders used heavily in uPVC, composite and timber door sets. They position themselves as a long-standing trade supplier of **window and door hardware** alongside the award-winning **ABS** cylinder range.

Where Avocet really made its name is **anti-snap protection**. Their ABS cylinders use patented mechanisms designed to “lock down” after a snapping attack—so even if the outside section is sacrificed, the door doesn’t open. Avocet markets this as **Active Snap Protection / Snap Secure technology**, built around an internal locking action triggered by the attack.

On the certification side, Avocet’s flagship ABS cylinders are commonly sold and independently listed with top-tier UK security markings like:

- **TS007 3-Star** (anti-snap standard for cylinders/door hardware)
- **SS312 Sold Secure Diamond**
- **Secured by Design** (UK police initiative)

Beyond cylinders, Avocet also sells broader “suited” door hardware ranges (handles and complementary hardware) aimed at giving fabricators/installers a consistent look and spec across a door set.
