Specification Summary

Brand	Avocet (ABS)
Product type	Avocet ABS Master Padlock Range

Product Description

The Avocet ABS Master Padlock Hasp is a heavy-duty security solution designed to provide maximum protection for your property. Specifically engineered for use with the Avocet ABS Master Series removable shackle padlocks, this high-security hasp totally encases the padlock body and shackle. By enclosing the lock, it shields it from direct physical attacks, including attempts with pry-bars, saws, and bolt cutters.

Constructed from high-grade malleable cast steel, this robust hasp is highly versatile and can be either bolted or welded. This makes it suitable for a wide range of applications, including steel, wood, or aluminium gates, doors, and barriers.

This padlock hasp is available in multiple sizes to match your specific padlock model: C10 HASP, C13 HASP, and C16 HASP. Please choose the correct manufacturer reference from the options below to ensure compatibility with your ABS Master Series padlock.

Technical Specifications

- **Manufacturer:** Avocet (ABS)
- **Material:** High-grade malleable cast steel
- **Compatibility:** Designed specifically for Avocet ABS Master Series removable shackle padlocks
- **Installation:** Suitable for welding or bolting
- **Application:** Steel, wood, or aluminium gates and doors
- **Available Options:** C10 HASP, C13 HASP, and C16 HASP (please select from the options below)

Key Features

- **Total Encasing:** Encloses the padlock body and shackle to protect against pry-bars and bolt cutters
- **Heavy-Duty Construction:** Made from durable malleable cast steel for high physical resistance
- **Versatile Mounting:** Can be welded or bolted to suit different gate and door materials
- **Tailored Fit:** Available in multiple sizes to perfectly match your ABS Master padlock model

Brand Profile

Avocet (ABS)

Avocet (The **Avocet Hardware Group**) is a UK door-and-window hardware brand best known for its **ABS high-security cylinders**, especially its anti-snap euro cylinders used heavily in uPVC, composite and timber door sets. They position themselves as a long-standing trade supplier of **window and door hardware** alongside the award-winning **ABS** cylinder range.

Where Avocet really made its name is **anti-snap protection**. Their ABS cylinders use patented mechanisms designed to “lock down” after a snapping attack—so even if the outside section is sacrificed, the door doesn’t open. Avocet markets this as **Active Snap Protection / Snap Secure technology**, built around an internal locking action triggered by the attack.

On the certification side, Avocet’s flagship ABS cylinders are commonly sold and independently listed with top-tier UK security markings like:

- **TS007 3-Star** (anti-snap standard for cylinders/door hardware)
- **SS312 Sold Secure Diamond**
- **Secured by Design** (UK police initiative)

Beyond cylinders, Avocet also sells broader “suited” door hardware ranges (handles and complementary hardware) aimed at giving fabricators/installers a consistent look and spec across a door set.
