Specification Summary

Brand	Avocet (ABS)
Product type	High Security Padlocks
Keyway	ABS

Product Description

The Avocet ABS Ultimate Padlock Range offers robust, high-security protection for gates, sheds, outbuildings, and commercial applications. Designed to integrate seamlessly with the Avocet ABS 3-Star Ultimate euro cylinder range, these padlocks can be keyed alike to your existing ABS keys. This allows you to open your front door, back door, and outdoor padlocks using just one single key, significantly reducing the clutter on your keyring.

Constructed with a solid hardened steel body and a durable black electrophoretic coating, these padlocks are built to withstand both physical attacks and harsh weather conditions. They feature a high-strength hardened molybdenum alloy shackle to resist cutting and sawing, backed by a dual stainless steel ball locking system for maximum pull resistance. For outdoor durability, the design includes a protective keyway shutter and integrated drainage holes to prevent freezing in cold weather.

This versatile range is available in both 46mm and 61mm body widths, with standard, long, extra-long, and closed shackle options to suit your specific security needs. Please choose your preferred body size and shackle configuration from the options below.

Technical Specifications

- **Body Widths:** 46mm or 61mm (please select from the options below)
- **Body Material:** Solid hardened steel with black electrophoretic coating
- **Shackle Material:** Hardened molybdenum alloy steel
- **Shackle Clearance Options:** Standard (28mm), Long (50mm), Extra Long (76mm), or Closed Shackle (61mm body only)
- **Locking Mechanism:** Dual stainless steel ball bearing locking
- **Key System:** Compatible with Avocet ABS W-Series key profile (can be keyed alike to ABS door cylinders)
- **Weather Protection:** Stainless steel cylinder shutter and drainage holes

Key Features

- **Keyed Alike Compatibility:** Can be keyed to match your existing Avocet ABS 3-Star door cylinders for ultimate one-key convenience.
- **Heavy-Duty Construction:** Solid steel body and molybdenum shackle provide exceptional resistance against drilling, picking, bumping, and cutting.
- **Weather Resistant:** Designed for British weather with drainage holes to prevent freezing and a protective keyway cover to keep out dirt and moisture.
- **High-Security Locking:** Dual ball bearing mechanism ensures maximum holding power and resistance to prying or pulling attacks.
- **Flexible Options:** Available in multiple body sizes and shackle lengths to fit a wide variety of hasps, chains, and gates.

Brand Profile

Avocet (ABS)

Avocet (The **Avocet Hardware Group**) is a UK door-and-window hardware brand best known for its **ABS high-security cylinders**, especially its anti-snap euro cylinders used heavily in uPVC, composite and timber door sets. They position themselves as a long-standing trade supplier of **window and door hardware** alongside the award-winning **ABS** cylinder range.

Where Avocet really made its name is **anti-snap protection**. Their ABS cylinders use patented mechanisms designed to “lock down” after a snapping attack—so even if the outside section is sacrificed, the door doesn’t open. Avocet markets this as **Active Snap Protection / Snap Secure technology**, built around an internal locking action triggered by the attack.

On the certification side, Avocet’s flagship ABS cylinders are commonly sold and independently listed with top-tier UK security markings like:

- **TS007 3-Star** (anti-snap standard for cylinders/door hardware)
- **SS312 Sold Secure Diamond**
- **Secured by Design** (UK police initiative)

Beyond cylinders, Avocet also sells broader “suited” door hardware ranges (handles and complementary hardware) aimed at giving fabricators/installers a consistent look and spec across a door set.
