0			Yes

Product Description

Get professional, high-quality replacement keys for your Avocet ATK cylinder locks. Widely used by several major door and lock manufacturers, these keys can be cut directly to code using our precise, state-of-the-art key cutting service.

Please note: We are unable to copy the purple-headed versions of these keys.

How to Order:

1. **Enter Your Key Code:** Locate the 8-digit code engraved on the blade of your key and enter it into the text box.

2. **Select Quantity:** Choose the number of keys you require, add them to your basket, and proceed to checkout.
3. **Email Verification:** Once your order is placed, please email us a clear, high-resolution image of your key fob with the code facing upwards to complete the process.

For security reasons, we highly recommend having your replacement keys delivered to a different address than where the lock is installed (such as a workplace or a relative's home).

Technical Specifications

- **Key Type:** Avocet ATK
- **Code Format:** 8-digit code (engraved on the key blade)
- **Compatibility:** Standard Avocet ATK cylinders (excludes purple-headed ABS versions)
- **Service Type:** Cut to code

Key Features

- **Accurate Cut-to-Code Service:** Cut using precise electronic machinery to ensure a perfect factory-original fit.
- **Simple Online Ordering:** Just enter your 8-digit code and email a photo for verification.
- **Widely Compatible:** Fits Avocet ATK cylinders used by several leading door manufacturers.
- **Secure Verification:** Photo verification required to ensure accuracy and security before cutting.

Brand Profile

Avocet (ABS)

Avocet (The **Avocet Hardware Group**) is a UK door-and-window hardware brand best known for its **ABS high-security cylinders**, especially its anti-snap euro cylinders used heavily in uPVC, composite and timber door sets. They position themselves as a long-standing trade supplier of **window and door hardware** alongside the award-winning **ABS** cylinder range.

Where Avocet really made its name is **anti-snap protection**. Their ABS cylinders use patented mechanisms designed to “lock down” after a snapping attack—so even if the outside section is sacrificed, the door doesn’t open. Avocet markets this as **Active Snap Protection / Snap Secure technology**, built around an internal locking action triggered by the attack.

On the certification side, Avocet’s flagship ABS cylinders are commonly sold and independently listed with top-tier UK security markings like:

- **TS007 3-Star** (anti-snap standard for cylinders/door hardware)
- **SS312 Sold Secure Diamond**
- **Secured by Design** (UK police initiative)

Beyond cylinders, Avocet also sells broader “suited” door hardware ranges (handles and complementary hardware) aimed at giving fabricators/installers a consistent look and spec across a door set.
