Specification Summary

Brand	Avocet (ABS)
Product type	Lever Furniture

Product Description

The Avocet Pioneer Plus Lever/Lever Long Backplate Door Furniture is a high-quality, reliable choice for modern doors. Supplied in pairs, these handles come complete with fixing screws and a spring cassette to ensure smooth, reliable operation and prevent handle sag.

Designed with a 12mm backplate depth, this model allows for the seamless installation of standard-sized euro cylinders. It features an extended long backplate with 215mm screw fixing centres and 92mm PZ centres, making it a versatile replacement option for many standard multipoint locks. The handles are fully reversible, making them suitable for both left and right-handed doors.

With exceptional durability, these handles have been performance tested to 100,000 cycles and salt spray tested for 500 hours to ensure excellent corrosion resistance. They are available in a variety of finishes, including Black, Chrome Plated, Gold, Grey, Satin Chrome, and White, to match your existing door hardware. Please select your preferred finish and specifications from the options below.

Brand Profile

Avocet (ABS)

Avocet (The **Avocet Hardware Group**) is a UK door-and-window hardware brand best known for its **ABS high-security cylinders**, especially its anti-snap euro cylinders used heavily in uPVC, composite and timber door sets. They position themselves as a long-standing trade supplier of **window and door hardware** alongside the award-winning **ABS** cylinder range.

Where Avocet really made its name is **anti-snap protection**. Their ABS cylinders use patented mechanisms designed to “lock down” after a snapping attack—so even if the outside section is sacrificed, the door doesn’t open. Avocet markets this as **Active Snap Protection / Snap Secure technology**, built around an internal locking action triggered by the attack.

On the certification side, Avocet’s flagship ABS cylinders are commonly sold and independently listed with top-tier UK security markings like:

- **TS007 3-Star** (anti-snap standard for cylinders/door hardware)
- **SS312 Sold Secure Diamond**
- **Secured by Design** (UK police initiative)

Beyond cylinders, Avocet also sells broader “suited” door hardware ranges (handles and complementary hardware) aimed at giving fabricators/installers a consistent look and spec across a door set.
