Specification Summary

Brand	Axim
Product type	Touch Bar

Product Description

The Axim CB-742-AL is a 42-inch replacement crash bar designed specifically for use with the Axim PR7085 and PR7095 panic bar exit devices. It is the ideal solution for replacing a damaged or worn crossbar, restoring full functionality and safety to your emergency exit doors.

Constructed from high-quality extruded aluminium, this crash bar features a durable silver satin anodised finish designed to match the original Axim exit hardware housings.

Measuring 42 inches (approximately 1067mm) in length, the bar is suitable for doors up to 1067mm wide. For narrower doorways, it can be easily cut down on-site to the exact width required, providing a precise and custom fit for your specific installation.

Technical Specifications

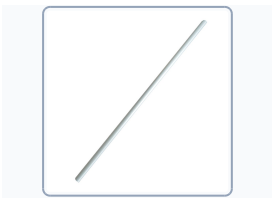

- **Brand:** Axim
- **Manufacturer Reference:** CB-742-AL
- **Length:** 42 inches (1067mm)

- **Finish:** Silver (Satin Anodised Aluminium)
- **Material:** Extruded aluminium

Brand Profile

Axim

AXIM (Axim Architectural Hardware) is a UK-focused architectural door hardware brand best known for its **transom closers / concealed overhead door closers**, plus the broader "commercial aluminium door" hardware ecosystem that goes with them. The brand was **originally formed in 1987** and is built around supplying a **comprehensive, in-stock range** through a **pan-European distributor network**.

AXIM's range is basically "everything you'd spec around a commercial entrance door":

- **Concealed transom closers** (their signature category: TC series like **TC8800, TC9600, TC9900**)
- **Surface mounted overhead closers** (FC series)
- **Floor springs** (FS series)
- Plus the rest of the door-hardware toolbox: **panic exit devices, electric strikes, deadlatches, flush bolts, letter plates, locks, handles**

This is why AXIM shows up a lot in aluminium door setups: it's designed to be a **reliable, spec-friendly "one brand covers most of the door"** option rather than a single hero product.
