Specification Summary

Brand	Axim
Product type	Flush Bolts

Product Description

The Axim FB6401 Series Flush Bolt is a high-quality, reliable security solution designed for aluminium doors. Featuring a 20mm wide flat face with a silver anodised finish, this flush bolt integrates seamlessly into modern door profiles. It is equipped with a hardened steel bolt and an anti-rattle sleeve to ensure smooth, quiet operation.

Designed with user convenience in mind, the FB6401 features a deep finger recess and a large operating lever, making it easy to engage and disengage. A practical "centre punch" tip on the bolt allows for precise marking of the keep's centre during installation, saving time and ensuring an accurate fit.

This flush bolt is available in multiple rod lengths (11cm or 23cm) to suit different door heights and installation requirements. Please choose your preferred length and specification from the options below. Each unit comes supplied complete with all necessary fixings for a straightforward installation.

Technical Specifications

Brand Profile

Axim

AXIM (Axim Architectural Hardware) is a UK-focused architectural door hardware brand best known for its **transom closers / concealed overhead door closers**, plus the broader "commercial aluminium door" hardware ecosystem that goes with them. The brand was **originally formed in 1987** and is built around supplying a **comprehensive, in-stock range** through a **pan-European distributor network**.

AXIM's range is basically "everything you'd spec around a commercial entrance door":

- **Concealed transom closers** (their signature category: TC series like **TC8800, TC9600, TC9900**)
- **Surface mounted overhead closers** (FC series)
- **Floor springs** (FS series)
- Plus the rest of the door-hardware toolbox: **panic exit devices, electric strikes, deadlatches, flush bolts, letter plates, locks, handles**

This is why AXIM shows up a lot in aluminium door setups: it's designed to be a **reliable, spec-friendly "one brand covers most of the door"** option rather than a single hero product.
