Specification Summary

Brand	Axim
Product type	Transom

Product Description

The Axim TC-9902 Concealed Transom Closer (Body Only) is a robust, high-performance overhead door closer designed to fit discreetly within the door transom. This Size 2 model is ideal for medium-duty commercial applications, providing a clean, uninterrupted aesthetic for single or double-action aluminium doors.

This universal replacement unit is designed to replace the Axim 8800 series, Peters Jackson, Newman Tonks, Ryobi, and other leading transom closers. This allows for a straightforward installation without requiring costly modifications to the door or frame. The closer is supplied complete with all necessary fixings, including bearing plates, and comprehensive fitting instructions.

For tailored functionality, this closer is available in both **Hold Open (90°)** and **Non-Hold Open** configurations, with corresponding manufacturer references and barcodes. Please select your preferred option from the drop-down menu below.

The TC-9902 is fully adjustable, featuring independent valve controls for both the latching and sweep speeds, alongside a mechanical backcheck to protect the door from damage. It also features captivated adjustment screws to prevent accidental removal during installation.

Technical Specifications

- **Brand:** Axim
- **Model Range:** TC-9902
- **Application:** Transom (Concealed Overhead)
- **Strength Size:** Size 2
- **Suitable Door Width:** 751mm to 950mm

Brand Profile

Axim

AXIM (Axim Architectural Hardware) is a UK-focused architectural door hardware brand best known for its **transom closers / concealed overhead door closers**, plus the broader “commercial aluminium door” hardware ecosystem that goes with them. The brand was **originally formed in 1987** and is built around supplying a **comprehensive, in-stock range** through a **pan-European distributor network**.

AXIM’s range is basically “everything you’d spec around a commercial entrance door”:

- **Concealed transom closers** (their signature category: TC series like **TC8800, TC9600, TC9900**)
- **Surface mounted overhead closers** (FC series)
- **Floor springs** (FS series)
- Plus the rest of the door-hardware toolbox: **panic exit devices, electric strikes, deadlatches, flush bolts, letter plates, locks, handles**

This is why AXIM shows up a lot in aluminium door setups: it’s designed to be a **reliable, spec-friendly “one brand covers most of the door”** option rather than a single hero product.
