Specification Summary

Brand	Barrier Components
Product type	Gate Closer

Product Description

The Barrier Components GC2000 Gate Closer is a high-quality, reliable solution designed for self-closing garden gates and small personnel gates. Featuring a gas-powered self-closing pump, this closer ensures gates close smoothly and securely every time, preventing them from slamming or remaining open.

Engineered for durability, the GC2000 is constructed with a weather-resistant, black powder-coated steel casing, making it ideal for outdoor UK environments. It is suitable for timber and steel-framed gates weighing up to 50kg and measuring up to 1000mm in width.

This versatile gate closer is designed to be fitted to the 'pull' side of the gate. It features two adjustable speeds, allowing you to easily fine-tune both the closing and latching speeds to suit your requirements. Additionally, it includes a convenient "hold open" facility, which can be activated by adjusting a screw position, making it perfect for times when you need unobstructed access.

Technical Specifications

- **Brand:** Barrier Components
- **Manufacturer Reference:** 604002
- **Part Number:** L30711
- **Finish:** Black
- **Max Gate Weight:** 50kg
- **Max Gate Width:** 1000mm
- **Length:** 280mm (28cm)
- **Width:** 45mm
- **Weight:** 1.04kg
- **Mounting Side:** Pull side only
- **Weather Resistant:** Yes
- **Barcode:** 5056240112633

Key Features

- **Gas-Powered Self-Closing:** Provides a smooth, controlled closing action without slamming.
- **Adjustable Dual Speeds:** Easily adjust both the closing and latching speeds to suit your gate.
