Specification Summary

Brand	Baton Lock
Product type	Long Shackle

Product Description

The Baton Lock 6020 Series Long Shackle Brass Padlock offers high-security protection for a wide range of domestic and commercial applications. Featuring a solid brass body with a durable chrome-plated finish, this padlock is built to withstand harsh weather conditions and physical force.

Equipped with a hardened steel long shackle, it provides an extended 50mm vertical clearance, making it ideal for securing gates, chains, and larger locking points. Security is significantly enhanced by a double ball bearing locking mechanism that resists pulling and prying, alongside a virtually pick-proof 5-disc detainer system. For added safety, the key is only removable when the padlock is fully locked, preventing accidental security lapses.

This padlock is available in multiple body widths (45mm or 55mm) and shackle diameters (9mm or 11mm) to suit your specific security requirements. Please select your preferred size and specification from the options below.

Technical Specifications

- **Body Material:** Solid Brass (Chrome Plated finish)
- **Shackle Material:** Hardened Steel
- **Shackle Type:** Long shackle with 50mm vertical clearance
- **Locking Mechanism:** Double ball bearing
- **Cylinder Mechanism:** 5-disc detainer system
- **Body Width:** 45mm or 55mm (please select from the options below)
- **Shackle Diameter:** 9mm or 11mm (please select from the options below)
- **Weight:** 690g or 700g (please select from the options below)
- **Manufacturer Reference:** 6020-46 or 6020-56 (please select from the options below)
- **Keying:** Keyed to differ
- **Keys Supplied:** 2 keys
- **Packaging:** Boxed

Key Features

- **High-Security Locking:** Double ball bearing mechanism offers superior resistance against pulling and prying attacks.
- **Pick-Resistant Cylinder:** The 5-disc detainer system is virtually pick-proof, providing excellent protection against manipulation.
- **Corrosion Resistant:** Chrome-plated solid brass body ensures long-lasting durability and weather resistance.
- **Hardened Steel Shackle:** Resists cutting, sawing, and cropping attempts.
- **Key Retaining Design:** The key can only be removed when the padlock is locked, ensuring it is never left open by mistake.
- **Extended Clearance:** Long shackle design with a 50mm vertical clearance allows for versatile locking configurations.

Brand Profile

Baton Lock

Baton Lock is a UK-based locking-systems brand and manufacturer focused on **commercial and industrial security hardware**, particularly **cam locks, access-control style locking products, and heavy-duty padlocks**. The company markets itself as an **international manufacturer of locking systems and associated security products**, established in **1973**, with a long-standing reputation for supplying a wide range of locking and access solutions.

They operate out of **Trafford Park, Manchester** (Baton House, Unit 1, Fourth Avenue), and the UK company entity (**BATON LOCK LIMITED**) is listed at Companies House as incorporated in **December 1994**.

What Baton is known for in the trade channel is **disc-detainer / detainer disc** style locking on key product lines (often promoted as highly pick-resistant), plus practical system options like **master-keyed and keyed-alike setups** depending on application. Their product lineup includes:

- **Maxi-security cam locks** (NAMA-style formats, with multiple keyway options)
- **Padlocks** including brass and disc-detainer models, and specialist variants for tougher environments
- Wider “site security bits” you’ll see on distributor shelves (chains, key cabinets, tags), depending on the stockist mix
