Specification Summary

Brand	Baton Lock
Product type	Sliding Shackle

Product Description

The Baton Lock K Force Sliding Shackle Padlock is a robust security solution designed to protect commercial and industrial premises. Featuring a solid hardened steel body and shackle, this padlock offers exceptional resistance against physical attacks, including saw and drill attempts. The keyhole is shielded by an anti-drill plate, and the cylinder is fully re-keyable, allowing for flexible security management.

Ideally suited for securing roller shutter doors, warehouses, industrial units, and shipping containers, the K Force padlock provides robust defence where high security is paramount.

This padlock is available in a range of sizes and specifications to suit your security requirements. Body widths are available in 66mm, 75mm, and 85mm, with body depths ranging from 25mm to 28mm. Depending on the model selected, the horizontal clearance ranges from 20mm to 35mm, vertical clearance is available in 11mm or 15mm, and weights range from 1.162kg to 2.142kg. Please choose your preferred size, manufacturer reference, barcode, and specification from the options below.

Technical Specifications

- **Brand:** Baton Lock
- **Body Width:** 66mm, 75mm, or 85mm (please choose from the options below)
- **Body Depth:** 25mm, 27mm, or 28mm (please choose from the options below)
- **Shackle Diameter:** 10mm
- **Horizontal Clearance:** 20mm, 29mm, or 35mm (please choose from the options below)
- **Vertical Clearance:** 11mm or 15mm (please choose from the options below)
- **Cylinder System:** Cisa LIM
- **Keying:** Keyed To Differ (In-House Keyed Alike options available)
- **Keys Supplied:** 2
- **Finish:** Stainless Steel
- **Weight:** 1.162kg to 2.142kg (please choose from the options below)
- **Pack Quantity:** 1

Brand Profile

Baton Lock

Baton Lock is a UK-based locking-systems brand and manufacturer focused on **commercial and industrial security hardware**, particularly **cam locks, access-control style locking products, and heavy-duty padlocks**. The company markets itself as an **international manufacturer of locking systems and associated security products**, established in **1973**, with a long-standing reputation for supplying a wide range of locking and access solutions.

They operate out of **Trafford Park, Manchester** (Baton House, Unit 1, Fourth Avenue), and the UK company entity (**BATON LOCK LIMITED**) is listed at Companies House as incorporated in **December 1994**.

What Baton is known for in the trade channel is **disc-detainer / detainer disc** style locking on key product lines (often promoted as highly pick-resistant), plus practical system options like **master-keyed and keyed-alike setups** depending on application. Their product lineup includes:

- **Maxi-security cam locks** (NAMA-style formats, with multiple keyway options)
- **Padlocks** including brass and disc-detainer models, and specialist variants for tougher environments
- Wider “site security bits” you’ll see on distributor shelves (chains, key cabinets, tags), depending on the stockist mix
