Product type	Borg Accessories

Product Description

The Borg 2000 Series Gaskets are high-quality replacement rubber seals designed for Borg mechanical digital locks. Positioned between the lock body and the door face, these gaskets provide an essential barrier against the elements. They help prevent moisture, dust, and dirt from entering the internal lock mechanism, ensuring long-term reliability and smooth operation. Additionally, they protect the door's surface from scratches and wear during installation and daily use.

These gaskets are specifically tailored to suit a wide range of models within the Borg 2000 series, making them an ideal choice for routine maintenance or when reinstalling a lock on a new door.

Technical Specifications

- **Manufacturer:** Borg Accessories
- **Material:** Rubber
- **Colour:** Black
- **Compatibility:** Suitable for Borg 2000 series digital locks, specifically models 2001, 2002, 2005, 2021, 2201, 2202, 2501, 2521, 2701, 2702, and 2705

Key Features

- **Weather Protection:** Helps seal the gap between the lock and the door to reduce moisture and dust ingress
- **Surface Protection:** Cushions the lock against the door face to prevent scratching and damage
- **Genuine Borg Accessory:** Designed specifically for a precise fit on Borg 2000 series locksets
- **Ideal for Maintenance:** Perfect for replacing worn, compressed, or damaged original gaskets during servicing
